

CROSLY APPLIANCE WARRANTY INFORMATION

Your appliance is covered by a one year limited warranty. For one year from your original date of purchase, Crosley Corporation will pay all costs for repairing or replacing any parts of this appliance that prove to be defective in materials or workmanship when such appliance is installed, used and maintained in accordance with the provided instructions.

Exclusions

This warranty does not cover the following:

1. Products with original serial numbers that have been removed, altered or cannot be readily determined.
2. Product that has been transferred from its original owner to another party or removed outside the USA or Canada.
3. Rust on the interior or exterior of the unit.
4. Products purchased "as-is" are not covered by this warranty.
5. Food loss due to any refrigerator or freezer failures.
6. Products used in a commercial setting.
7. Service calls which do not involve malfunction or defects in materials or workmanship, or for appliances not in ordinary household use or used other than in accordance with the provided instructions.
8. Service calls to correct the installation of your appliance or to instruct you how to use your appliance.
9. Expenses for making the appliance accessible for servicing, such as removal of trim, cupboards, shelves, etc., which are not a part of the appliance when it is shipped from the factory.
10. Service calls to repair or replace appliance light bulbs, air filters, water filters, other consumables, or knobs, handles, or other cosmetic parts.
11. Surcharges including, but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas, including the state of Alaska.
12. Damages to the finish of appliance or home incurred during installation, including but not limited to floors, cabinets, walls, etc.
13. Damages caused by: services performed by unauthorized service companies; use of parts other than genuine Crosley parts or parts obtained from persons other than authorized service companies; or external causes such as abuse, misuse, inadequate power supply, accidents, fires, or acts of God.

DISCLAIMER OF IMPLIED WARRANTIES; LIMITATION OF REMEDIES

CUSTOMER'S SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE PRODUCT REPAIR OR REPLACEMENT AS PROVIDED HEREIN. CLAIMS BASED ON IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO ONE YEAR OR THE SHORTEST PERIOD ALLOWED BY LAW, BUT NOT LESS THAN ONE YEAR. CROSLY CORPORATION SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN LIMITED WARRANTY OR ANY IMPLIED WARRANTY. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON THE DURATION OF IMPLIED WARRANTIES, SO THESE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WRITTEN WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.

If You Need Service

Keep your receipt, delivery slip, or some other appropriate payment record to establish the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. Service under this warranty must be obtained by contacting Crosley Corporation at the addresses or phone numbers below.

This warranty only applies in the USA and Canada. In the USA, your appliance is warranted by Crosley Corporation. In Canada, your appliance is warranted by Crosley Canada Corp. Crosley Corporation authorizes no person to change or add to any obligations under this warranty. Obligations for service and parts under this warranty must be performed by Crosley Corporation, Crosley Canada Corp, or an authorized service company. Product features or specifications as described or illustrated are subject to change without notice.

SOLUTIONS TO COMMON PROBLEMS

Common Drying Problems

Many drying problems involve poor cleaning results, poor soil and stain removal, residues of lint and scum, and fabric damage. For satisfactory drying results, follow these suggestions provided by The Soap and Detergent Association.

PROBLEM	POSSIBLE CAUSES	SOLUTIONS	PREVENTIVE MEASURES
Greasy, oily stains	Fabric softener sheet.	Rub fabric softener stains with bar soap. Rinse and rewash.	- Add a few bath towels to small loads for proper tumbling. - Some "silk-like" fabrics should be air dried. - Use proper drying temperature. - Place fabric softener sheet on top of load before starting the dryer.
Lint	- Overloading. - Overdrying causes static electricity. - Lint screen not clean when cycle began. - Lint is attached to "pills."	- Reduce load size and rewash using liquid fabric softener in the final rinse. - Or, add a fabric softener sheet and tumble without heat. - Use lint brush or roller to remove lint.	- Do not overload dryer. - Use fabric softener in washer or dryer to reduce static electricity. - Remove items when they are slightly damp to avoid overdrying. - Check that lint filter is clean and in place.
Pilling (Fibers break off, ball up and cling to fabric.)	Overdrying.	Use a lint brush or shaver to remove pills.	- Use fabric softener to lubricate fibers. - When ironing, use spray starch or fabric finish on collars and cuffs. - Turn items inside out to reduce abrasion.
Shrinking	- Temperature too high. - Overdrying.	Irreversible condition.	- Follow fabric care label directions. - If shrinking is a concern, check load often. - Remove items while slightly damp and hang or lay flat to complete drying. - Block knits into shape.
Wrinkling	- Overloading. - Leaving items in dryer after cycle ends.	- Reduce load size and tumble at medium or low heat for 5-10 minutes. - Remove items immediately. Hang or fold.	- Do not overload dryer. - Remove items as soon as cycle ends.

OPERATING INSTRUCTIONS

Cycle Options

To add options, press the corresponding options buttons to illuminate the selections desired. To delete options, press the options buttons again and the indicator lights will turn off.

Not all options are available on every model. To protect your fabrics, not all options are available with every cycle. If an option is not appropriate for the cycle, the indicator will not light. Occasionally, a setting and option in the same cycle will conflict with each other, like **Sanitize** temp and **Damp** dry level. When this happens, the option selected first will cause the conflicting option to not be selectable.

NOTE

To change **Options** after the cycle starts, press **Pause**, adjust the setting and press **Start** to resume the cycle.

Energy Saver

The **Energy Saver** option reduces the drying temperature a few degrees to save energy. In conjunction with automatic moisture sensors, cycle times will increase slightly, but overall energy usage will decrease. On some models, you may also notice after the cycle begins most lights and indicators will turn off. To turn those lights temporarily back on press **Energy Saver** during the cycle.

Wrinkle Release

Select **Wrinkle Release** if the dried load might not be removed promptly at the end of the cycle. The dry load will continue tumbling without heat to help reduce wrinkling. When **Chime** is selected, a beep will be heard periodically. The load may be removed any time during **Wrinkle Release**.

Line Dry

Select this option to simulate hanging your laundry in a summer breeze combined with the wrinkle-releasing benefits of tumble action. Since drying times are calculated with the dryer's automatic moisture sensors and heat is radically reduced or eliminated, cycle time will be lengthened. As a result, depending on moisture content of load, overall energy consumption decreases. Available on **Mixed Load** (on select models), **Normal**, **Casual**, **Jeans** (on select models), and **Delicates**.

Delay Start

Press **Delay Start** to select a drying time convenient to your schedule or during off peak energy hours. The delay time selected will be displayed and begin counting down when you select **Start**.

NOTE

While counting down during **Delay Start**, you will notice your dryer periodically tumbling for a few minutes without heat to redistribute the load, maximizing load freshness.

Chime

Select this option to add a chime to the end of the cycle, and as a reminder to remove the load during wrinkle release. Press the chime button to select the volume level desired or to turn off the signal.

Shrink Guard

Select **Shrink Guard** to lower the initial drying temperature to protect fabrics from overdrying.

Control Lock

To lock the controls between cycles, press and hold the **Control Lock** button for 5 seconds. Repeat to unlock the controls when you are ready to operate the dryer. Use this feature to reduce the likelihood of accidental operation by children.

OPERATING INSTRUCTIONS

This manual covers many models and not all cycles, options, or features listed are available on every model. Consoles shown above for reference only. Your model may differ.

Cycle Selection

Turn the cycle selector in either direction to the cycle desired. The indicator for that cycle will be illuminated. To change the cycle once it has begun, press the cancel button before selecting a new cycle. Just turning the cycle selector knob to another selection will not change the cycle.

For best results

Follow the fabric care label instructions on items to be dried.

Auto Dry Cycles

Auto Dry cycles take the guesswork out of selecting the correct drying time for each load. Moisture sensing bars at the back of the dryer drum sense the moisture level of the load as it tumbles through the heated air. With Auto Dry cycles, the load will automatically be dried at the selected temperature to the desired dryness level.

Auto Dry cycles save time and energy and protect fabrics. When the load has reached the selected dryness level, it will continue to tumble during a cool down period. This helps reduce wrinkling and makes items easier to handle during unloading.

Drying time varies depending on size and dampness of load and fabric type. If the load is too small or almost dry, the moisture sensing bars may not detect enough moisture to continue the cycle and the cycle may end after a few minutes. If this occurs, select a Timed Dry cycle.

Room temperature and humidity, type of installation and electrical voltage or gas pressure can also affect drying time.

Heavy

Select this Auto Dry cycle to dry durable fabrics such as jeans and overalls.

Bulky

Select this Auto Dry cycle to dry bedding and bulky items such as comforters, blankets, sleeping bags and parkas.

Towels

Select this Auto Dry cycle for towels and bath mats.

Normal

Select this Auto Dry cycle for cotton items.

Allergy

Select this Auto Dry cycle to compliment your washer's Allergy cycle or where you wish to reduce allergens as you dry your load. Items prone to heat damage are not recommended for this cycle.

Mixed Load

Select this Auto Dry cycle to dry loads containing a mix of fabrics.

Casual

Select this Auto Dry cycle for cottons and blends with a no-iron finish.

Delicates

Select this Auto Dry cycle for knits and delicate items.

Timed Dry Cycles

WARNING

FIRE HAZARD

To avoid fire hazard, do not use heat to dry items containing feathers or down, foam rubber, plastics similarly textured, rubber-like materials. Use the Timed Dry cycle and the Air Dry setting.

Quick Dry

Select this timed cycle to quickly dry small loads in 25 minutes.

Time Dry

To manually select the drying time for any load, continue to turn the cycle Selector knob while on the **Time Dry** cycle, to increase or decrease drying time displayed on the LCD screen.

Because this is not an Auto Dry cycle, you will not be able to select a dryness level.

OPERATING INSTRUCTIONS

Normal Operating Sounds

You may or may not hear the following sounds from your new dryer:

- A. SUSPENSION ROLLERS** The dryer drum is supported by a set of suspension rollers. At times there may be a thumping or rolling sound when the dryer starts. This may happen if the dryer has not been in use for a period of time, or after a heavy load has remained in the dryer drum for an extended period, creating a temporary flat spot on the edge of the roller. The noise should dissipate as the dryer operates and the flat spots smooth out.
- B. AIR FLOW SYSTEM** Your dryer is equipped with a high volume air handling system. In some installations there may be some sounds associated with air movement throughout the dryer, including the air duct, blower, and exhaust system. This is normal and can vary with load size and type.
- C. GAS VALVE** (Gas models only.) The flow of gas is controlled by electric solenoids. During operation there may be a clicking sound as the valve opens and closes to control the gas flow.
- D. GAS BURNER** (Gas models only.) When the burner is operating, there may be sounds generated as the air flow mixes with the gas flame. This noise is normal and will only occur when the gas is ignited in the combustion tube.

CAUTION

Do not continue to use the dryer if you hear squeaking, grinding, rubbing or other unusual noises. This could be a sign of mechanical breakdown and lead to fire or serious injury. Contact a qualified technician immediately.

Operating Your Dryer

WARNING

To reduce the risk of fire, electric shock or injury to persons, read the IMPORTANT SAFETY INSTRUCTIONS in this Use and Care Guide before operating your dryer.

(Mesh bag not included.)

1 Prepare load for drying.

- Dry items of similar fabric, weight and construction in the same load.
- Separate dark items from light-colored items. Separate items that shed lint from those that attract lint.
- Check for stains which may not have been removed in washing. Repeat stain removal process and wash again before drying. Dryer heat may permanently set some stains.
- Place delicate or small items in a mesh bag.
- Be sure buckles, buttons and trim are heatproof and won't damage the drum finish. Close zippers; fasten hooks and Velcro®-like fasteners. Tie strings and sashes to prevent snagging and tangling.

IMPORTANT SAFETY INSTRUCTIONS

PROTECT CHILDREN

- Do not allow children to play on or in the dryer. Close supervision of children is necessary when the dryer is used near children. As children grow, teach them the proper, safe use of all appliances.
- Destroy the carton, plastic bag and other packing materials after the dryer is unpacked. Children might use them for play. Cartons covered with rugs, bedspreads or plastic sheets can become airtight chambers.
- Keep laundry products out of children's reach. To prevent personal injury, observe all warnings on product labels.
- Before the dryer is removed from service or discarded, remove the dryer door to prevent accidental entrapment.
- Failure to comply with these warnings could result in serious personal injuries.

PREVENT INJURY

- To prevent shock hazard and assure stability during operation, the dryer must be installed and electrically grounded by a qualified service person in accordance with local codes. Installation instructions are packed in the dryer for the installer's reference. Refer to **INSTALLATION INSTRUCTIONS** for detailed grounding procedures. If the dryer is moved to a new location, have it checked and reinstalled by a qualified service person.
- To prevent personal injury or damage to the dryer, the electrical power cord of a gas dryer must be plugged into a properly grounded and polarized 3-prong outlet. The third grounding prong must never be removed. Never ground the dryer to a gas pipe. Do not use an extension cord or an adaptor plug.

- ALWAYS disconnect the dryer from the electrical supply before attempting any service or cleaning. Failure to do so can result in electrical shock or injury.
- Do not use any type spray cleanser when cleaning dryer interior. Hazardous fumes or electrical shock could occur.
- To prevent injury, do not reach into the dryer if the drum is moving. Wait until the dryer has stopped completely before reaching into the drum.

PREVENT INJURY AND DAMAGE TO THE DRYER

- All repairs and servicing must be performed by an authorized servicer unless specifically recommended in this Owner's Guide. Use only authorized factory parts.
- Do not tamper with controls.
- Do not install or store the dryer where it will be exposed to the weather.
- A thermal limiter switch automatically turns off the motor in the unlikely event of an overheated situation (electric dryers only). A service technician must replace the thermal limiter switch after correcting the fault.
- Failure to comply with these warnings could result in serious personal injuries.

CAUTION

The California Safe Drinking Water and Toxic Enforcement Act requires the Governor of California to publish a list of substances known to the state to cause cancer, birth defects or other reproductive harm, and requires businesses to warn customer of potential exposure to such substances. Included in this list are soot and carbon monoxide, both of which may be produced by the use of this product.

NOTE

The instructions appearing in this **Use and Care Guide** are not meant to cover every possible condition and situation that may occur. Common sense and caution must be practiced when installing, operating and maintaining any appliance.

IMPORTANT SAFETY INSTRUCTIONS

WARNING

Please read all instructions before using this dryer.

Recognize safety symbols, words and labels

Safety items throughout this manual are labeled with a WARNING or CAUTION based on the risk type as described below:

Definitions

 This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

DANGER

DANGER indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

IMPORTANT

IMPORTANT indicates installation, operation or maintenance information which is important but not hazard-related.

WARNING

For your safety the following information in this manual must be followed to minimize the risk of fire or explosion or to prevent property damage, personal injury or death.

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

WHAT TO DO IF YOU SMELL GAS:

- Do not try to light any appliance.
- Do not touch any electrical switch; do not use any phone in your building.
- Clear the room, building or area of all occupants.
- Immediately call your gas supplier from a neighbor's phone. Follow the gas supplier's instructions.
- If you cannot reach your gas supplier, call the fire department.

Installation and service must be performed by a qualified installer, service agency or the gas supplier.

Read all instructions before using this appliance. This book contains valuable information about:

- Operation
- Care
- Service

Keep it in a safe place.

This **Use and Care Guide** provides general operating instructions for your dryer. It also contains information about features for several other models. Your dryer may not have every feature included.

Use the dryer only as instructed in this **Use & Care Guide**.

Save these instructions for future reference.
